|--------------------------|--------------------------|
| 1. I know that it's late | I can't concentrate      |
| 2. Lately it seems       | You've invaded my dreams |
| 3. I don't have a clue   | I don't know what to do  |
| 4. I daydream all day    | Finding a way            |

- I can't get you off of my mind
- Waking me up with your charms
- I can't get you off of my mind
- It happens to me every time

- |                      |                          |
|----------------------|--------------------------|
| 1. Try as I may      | To push you away         |
| 2. What will it take | How long must I wait     |
| 3. Its not any fun   | I cant get anything done |
| 4. I know its no use | I have no excuse         |

- You keep coming back every time
- Until you are here in my arms
- I cant get you off of my mind
- I cant get you off of my mind

 My mind	 I can't get you [off]	 My mind
 My mind	 I can't get you [off]	 My mind
 My mind	 I can't get you [off]	 My mind
 My mind	 I can't get you [off]	 My mind
